

SPOTLIGHT

Stop N Go

By Daniel Knowles, Coastal MSR

Walterboro is a town with no shortage of dedicated lottery players. This is definitely thanks to the number of equally dedicated retailers in the area. While there are so many great examples of stores that go above and beyond for their players, I can't think of one better than **Stop N Go** in **Walterboro**. From the big red and white "Lottery" printed on the front of the building to the multitudes of winning tickets on the walls and ceiling, this store wants you to know that they do more than just sell lottery, they celebrate their players' victories.

Earlier this year this location underwent a lengthy change of ownership that rendered the store unable to sell lottery for several weeks. Every day their customers would come in and ask "Are you no longer selling lottery?" and "Are we ever getting the lottery back?" Discouraged, players were beginning to take their business elsewhere. This is when Stop N Go kicked it into high gear. As soon as they were able to, the store filled their dispensers to the brim and started a promotion forking out prizes that got everyone excited!

Since then, the store has climbed up from a completely clean slate all the way back to the number one store in my territory! If you are ever in the area, swing by Stop N Go. You won't be disappointed.

What is Double Play®?

Double Play® is a new add on that cost an additional \$1 per play. With Double Play® you have a second chance to match your Powerball® numbers for a chance to win up to \$10 million. The Double Play® drawing is held after the Powerball® drawing. PowerPlay® does not apply to Double Play®.

What are the Double Play® prizes and odds?

The odds for Double Play® are the same as the Powerball® drawing. The prizes are different. Instead of a jackpot, match all six numbers to win \$10 million. See chart for more details.

Do players have to pick a second set of Double Play® numbers?

No. Players play the same set of numbers in the Powerball® and Double Play® drawings. Players can win prizes in both drawings!

How will the Double Play® drawing be conducted?

The Double Play® drawing will look similar to the Powerball® drawing. Instead of five white ball numbers, the first five numbers will be drawn from a set of black ball numbers and then one red Powerball® number will be selected. The Double Play® drawing will be recorded and posted to Powerball.com.

Can a player add PowerPlay® and Double Play® to their ticket?

Yes. A Powerball® ticket with PowerPlay® and Double Play® added will cost \$4. NOTE: PowerPlay® only applies to non-jackpot prizes won in the Powerball® drawing.

What else do I need to know before selling tickets with Double Play®?

Players must use the new Powerball® play slips provided starting Sunday, August 22. If a player wants to play Double Play® make sure they have marked the Double Play® box on their play slip. If entering numbers on the lottery terminal, select "yes" for the Double Play® option.

WHAT YOU NEED TO KNOW

How does Powerball® compare to Double Play®? While the odds are the same, the prizes are different. Take a moment to review the two charts, noting the Double Play® prizes highlighted in the red box.

The \$10 MILLION jackpot prize for DOUBLE PLAY® is a "Cash" option only. If there is more than one winning ticket sold, the \$10 MILLION will be divided equally based upon the number of winning plays from all participating lotteries. The other eight prize levels are set cash amounts.
